

**Fri. April 29**  
**Sat. April 30**  
**Sun. May 1**

*Clare Licher of PhiBee Aromatics will teach...*

## **DISTILLING THE ESSENTIAL OILS OF LOCAL TREES AND HERBS**

**Yerba Buena Farm, St. Mary**  
**10 am - 4 pm**

USAID Farmer to Farmer/Partners of the Americas Trainer Clare Licher will teach us:

- ▶ how to assess whether a plant can produce essential oil
- ▶ how to distill the essential oil from various plants using a 5 gallon still
- ▶ the medicinal qualities and monetary value of many local essential oils
- ▶ how to use these plant oils for health and to enrich the products made by your business

In addition, we will discuss the creation of an essential oil distillation cooperative. The goal is to have a still where everyone can bring in their plant material and have the essential oil distilled.

There is no cost for the workshops. All are welcome. Lunch (chicken, fish or veg) is available at a local cook shop for \$250.
